

Miundombinu katika Masoko ya Jumla ya Nyanya na Mboga za Majani

Umeme

89% ya masoko yameunganishwa na gridi ya taifa ya umeme.

Vituo vya kunawa mikono

81% ya masoko yana vituo vya kunawa mikono.

74% ya vituo vya kunawa mikono vina sabuni.

43% ya vituo vya kunawa mikono havina maji tiririka.

Vyoo

98% ya masoko yana vyoo.

Hata hivyo, vyoo bado ni adimu.

Kwa wastani, choo 1 kinatumika na wafanyabiashara 159.

Mnamo 2024, mradi wa "Utafiti Unaosaidia MSMEs za Kiafrika Kutoa Chakula Salama na Lishe" ulifanya uchunguzi wa masoko ya jumla ya nyanya na mboga za majani katika miji 8 nchini Tanzania. Utafiti huo ulishughulikia masoko 45, na kati ya mada zingine, ulikusanya habari juu ya upatikanaji wa miundombinu muhimu na hali zake.

Mapendekezo

- Weka kipaumbele kwa maji tiririka katika vituo vya kunawa mikono.
- Sabuni ziwekwe kwenye vituo vya kuosha.
- Upatikanaji wa choo kwa kila mfanyabiashara uboreshwe.
- Hakikisha upatikanaji wa maji ya bomba.

Miundombinu bora inamaanisha ufikiaji bora kwa wote!

Ufikikaji

78% ya masoko yana miundombinu rafiki kwa watu wenye ulemavu wa mwili.

Ugavi wa maji

58% ya masoko yana upatikanaji wa maji ya bomba.

Masoko katika Ukanda wa Kati mara nyingi hutegemea mvua na maji ya uso wa ardhi.

Masoko ya Kaskazini mara nyingi hununua maji katika madumu.

Usafiri

98% ya masoko yanaweza kufikika kwa usafiri wa umma.

73% ya masoko yanafikika kwa barabara ya lami.

Infrastructure in Wholesale Markets

Electricity

89% of markets are connected to the national electric grid.

In 2024, the “Research Supporting African MSMEs to Provide Safe and Nutritious Food” project conducted a survey of wholesale markets for tomato and green leafy vegetables in 8 cities in Tanzania. The survey covered 45 markets and, among other topics, captured information on the availability and condition of key infrastructure.

Accessibility

78% of markets are accessible to the physically disabled.

Handwashing Stations

81% of markets have handwashing stations.

74% of the handwashing stations have soap.

43% of the handwashing stations have no running water.

Recommendations

- Prioritize running water at handwashing stations.
- Provide soap at handwashing stations.
- Improve toilet access per trader.
- Ensure access to pipeborne water.

Water Supply

58% of markets have access to pipeborne water.

Markets in the Central Zone often rely on rain and surface water.

Markets in the North often purchase water in jerricans.

Toilets

98% of markets have toilets.

However, toilets are still scarce.

On average, 1 toilet is available for 159 traders.

Better infrastructure means better access for all!
