The creative arts sampler is a half-day workshop designed for 4-H youth and volunteers to try out a variety of visual arts projects. Instruction will be provided for three projects: glass etching, can embossing, and quilling. These simple-to-learn projects will make great entries for the fair and can easily be taken back and taught to club members.

REGISTRATION:

Limited spots are available for this workshop. Participants must pre-register no later than April 10, 2023. There is no cost to register, but participants will need to provide their own glass piece and an empty pop can for the workshop.

Register by contacting Stacey Woggon, 4-H Program Coordinator, by phone (989-875-5295) or email (woggonst@msu.edu).
