- **Whiting, M.D., G.A. Lang, and D. Ophardt. 2005.** Rootstock and training system affect sweet cherry growth, yield and fruit quality. HortScience 40:582-586
- **Lang, G.A. 2005.** Carbon partitioning for sweet cherry leaf and fruit development. Compact Fruit Tree 38(Special Edition):49-51.
- **Lang, G.A. 2005.** Success stories and train(ing) system wrecks - a high density cherry workshop wrap-up. Compact Fruit Tree 38(Special Edition):59-61.
- **Nugent, J., G. Lang, and B. Shane. 2005.** Early twenty-first century cherry varieties for the Great Lakes and eastern North America. N.Y. Fruit Quarterly 13(3):11-14
- **Lang, G.A. 2005.** Underlying principles of high density sweet cherry production. Acta Hort. 667:325-336.
- **Elfving, D.C., G.A. Lang, and D.B. Visser. 2005.** Effects of prohexadione-calcium and ethephon on growth and flowering of 'Bing' sweet cherry. Acta Hort. 667:439-446.
- **Kappel, F., G. Lang, L. Anderson, A. Azarenko, T. Facteau, A. Gaus, and S. Southwick. 2005.** NC-140 regional cherry rootstock trial (1998) - results from western North America. Acta Hort. 667:223-232.
- **Lang, G. 2004.** Great Lakes sweet cherries could compete in fresh market. Fruit Grower News 43(11):26-28.
- **Lang, G. 2004.** Rainier in the Great Lakes region. Fruit Grower News 43(11):33-34.
- **Whiting, M.D. and G.A. Lang. 2004.** 'Bing' sweet cherry on the dwarfing rootstock Gisela<sup>®</sup> 5: thinning affects fruit quality and vegetative growth, but not net CO<sub>2</sub> assimilation. J. Amer. Soc. Hort. Sci. 129:407-415.

- **Lang, G.A., J.W. Olmstead, and M.D. Whiting. 2004.** La distribuzione dei frutti e delle foglie nel ciliegio dolce: nuova modelli di gestione e controllo dell 'albero. *Rivista di Frutticoltura* 66(1):40-45.
  - **Ayala, M. and G.A. Lang. 2004.** Examining the influence of different leaf populations on sweet cherry fruit quality. *Acta Hort.* 636:481-488.
  - **Elfving, D.C., M.D. Whiting, G.A. Lang, and D.B. Visser. 2004.** Growth and flowering response of sweet cherry cultivars to Prohexadione-Ca and ethephon. *Acta Hort.* 636:75-82.
  - **Lang, G.A., J.W. Olmstead, and M.D. Whiting. 2004.** Sweet cherry fruit distribution and leaf populations: Modeling canopy dynamics and management strategies. *Acta Hort.* 636:591-599.
  - **Maguylo, K., G.A. Lang, and R.L. Perry. 2004.** Rootstock genotype affects flower distribution and density of 'Hedelfinger' sweet cherry and 'Montmorency' sour cherry. *Acta Hort.* 636:259-266.
  - **Olmstead, M.A., N.S. Lang, G.A. Lang, F. Ewers, and S. Owens. 2004.** Characterization of xylem vessels in sweet cherries (*Prunus avium* L.) on dwarfing rootstocks. *Acta Hort.* 636:129-135.
  - **Whiting, M.D. and G.A. Lang. 2004.** Effects of leaf area removal on sweet cherry vegetative growth and fruit quality. *Acta Hort.* 636:467-472.
- 
- **Andersen, R.L., J.E. Nugent, and G.A. Lang. 2003.** Sweet cherry varieties for Eastern U.S.: Canners and freezers. *Fruit Grower News* 42(2):16-18.
  - **Beckman, T.G. and G.A. Lang. 2003.** Rootstock breeding for stone fruits. *Acta Hort.* 622:531-551.
  - **Elfving, D.C., G.A. Lang, and D.B. Visser. 2003.** Prohexadione-Ca and ethephon reduce shoot growth and increase flowering in young, vigorous sweet cherry trees. *HortScience* 38:293-298.
  - **Lang, G., J. Nugent, and R. Andersen. 2003.** Fresh market sweet cherry varieties for eastern North America. *Fruit Grower News* 42(4):44-47.
- 
- **Lang, G.A. 2002.** Cherry - rootstock. pp. 255 in W.R. Okie, (ed), *Register of new fruit and nut varieties*, list 41. *HortScience* 37:251-272.
  - **Lang, G.A. 2002.** Cherry - sweet. pp. 253-255 in W.R. Okie, (ed), *Register of new fruit and nut varieties*, list 41. *HortScience* 37:251-272.

- **Lang, G.A. and R.L. Perry. 2002.** High density sweet cherry management: point-counterpoint. *Compact Fruit Tree* 35(4):115-117.
- **Olmstead, J.W. and G.A. Lang. 2002.** *Pmr1*, a gene for resistance to powdery mildew in sweet cherry. *HortScience* 37:1098-1099.
- **Gutzwiler, J. and G.A. Lang. 2001.** [Sweet cherry crop load and vigor management on Gisela® rootstocks](#). *Acta Horticulturae* 557:321-325.
- **Howell, W.E. and G.A. Lang. 2001.** Virus sensitivity of new sweet cherry rootstocks. *Compact Fruit Tree* 34(3):78-80.
- **Lang, G.A. 2001.** Critical considerations for sweet cherry training systems. *Compact Fruit Tree* 34(3):70-73.
- **Lang, G.A. 2001.** Intensive sweet cherry orchard systems - rootstocks, vigor, precocity, productivity, and management. *Compact Fruit Tree* 34(1):23-26.
- **Lang, G.A. and W. Howell. 2001.** [Lethal sensitivity of some new cherry rootstocks to pollen-borne viruses](#). *Acta Horticulturae* 557:151-154.
- **Lang, G., R. Andersen, and T. Robinson. 2001.** Gaining on Gisela® cherries. *Fruit Grower* 121(1):17-18.
- **Nugent, J., G. Lang, B. Shane, and R. Perry. 2001.** Training dwarf sweet cherries. *Fruit Grower News* 40(11):28-31.
- **Olmstead, J.W., G.A. Lang, and G.G. Grove. 2001.** Assessment of severity of powdery mildew infection of sweet cherry leaves by digital image analysis. *HortScience* 36:107-111.
- **Olmstead, J.W., G.A. Lang, and G.G. Grove. 2001.** Inheritance of powdery mildew resistance in sweet cherry. *HortScience* 36:337-340.
- **Whiting, M.D. and G.A. Lang. 2001.** Canopy architecture and cuvette flow patterns influence whole-canopy net CO<sub>2</sub> exchange and temperature in sweet cherry. *HortScience* 36:691-698.
- **Whiting, M.D. and G.A. Lang. 2001.** Sweet cherry photosynthesis, crop load, and fruit quality relationships. *Fruit Grower News* 40(11):42-46.
- **Lang, G.A. 2000.** Optimizing fresh market sweet cherry fruit quality: new opportunities for diversifying orchard profits? *Proc. Michigan State Hortic. Soc.* 130:81-84.

- **Lang, G.A. 2000.** Pacific Northwest cherry research - results and practical applications (WSU/Prosser report). Proc. Washington State Hortic. Assoc. 95:201-203.
  - **Lang, G.A. 2000.** Precocious, dwarfing, and productive - how will new cherry rootstocks impact the sweet cherry industry? HortTechnology 10:719-725.
  - **Lang, G.A. 2000.** WSU cherry varieties for the 21st century. Proc. Washington State Hortic. Assoc. 95:107-109.
  - **Lang, G.A. and D.R. Ophardt. 2000.** [Intensive crop regulation strategies in sweet cherries](#). Acta Horticulturae 514:227-234.
  - **Olmstead, J.W., D.R. Ophardt, and G.A. Lang. 2000.** [Sweet cherry breeding at Washington State University](#). Acta Horticulturae 522:103-110.
  - **Olmstead, J.W., G.A. Lang, and G.G. Grove. 2000.** A leaf disk assay for screening sweet cherry genotypes for susceptibility to powdery mildew. HortScience 35:274-277.
- 
- **Andersen, R.L., T. Robinson, and G.A. Lang. 1999.** [Managing the Gisela<sup>®</sup> cherry rootstocks](#). N.Y. Fruit Quarterly 7(4):19-22.
  - **Lang, G.A. 1999.** Cherry - sweet. pp. 186-187 in W.R. Okie, (ed), Register of new fruit and nut varieties, list 39. HortScience 34:181-205.
  - **Lang, G.A. 1999.** Dealing with the Gisela<sup>®</sup> cherry rootstock switch. Good Fruit Grower 50(15):39.
  - **Lang, G.A. 1999.** Experimental use of ReTain<sup>™</sup> in cherries. Good Fruit Grower 50(10):29-32.
  - **Lang, G.A. 1999.** Managing for possible mixup of Gisela<sup>®</sup> 5 and Gisela<sup>®</sup> 6 rootstocks. The Fruit Grower News 38(10):20-21.
  - **Lang, G.A. 1999.** Optimizing cherry quality - growing season effects. Proc. Wash. Tree Fruit Postharvest Conf. 15:41-44.
  - **Lang, G. and J. Flore. 1999.** Reducing raincracking in cherries. Good Fruit Grower 50(4):34-38.
  - **Lang, G. and J. Olmstead. 1999.** Cherry genetic resistance to powdery mildew. Good Fruit Grower 50(9):42-43.
- 
- **Gersch, K.P., C.E. Motsenbocker, and G.A. Lang. 1998.** Anatomical description of the fruit-receptacle detachment area in cayenne pepper. J. Amer. Soc. Hort. Sci. 123:550-

- **Guimond, C.M, G.A. Lang, and P.K. Andrews. 1998.** Timing and severity of summer pruning affects flower initiation and shoot regrowth in sweet cherry. HortScience 33:647-649.
- **Guimond, C.M, P.K. Andrews, and G.A. Lang. 1998.** Scanning electron microscopy of floral initiation in sweet cherry. J. Amer. Soc. Hort. Sci. 123:509-512.
