TOMATOES

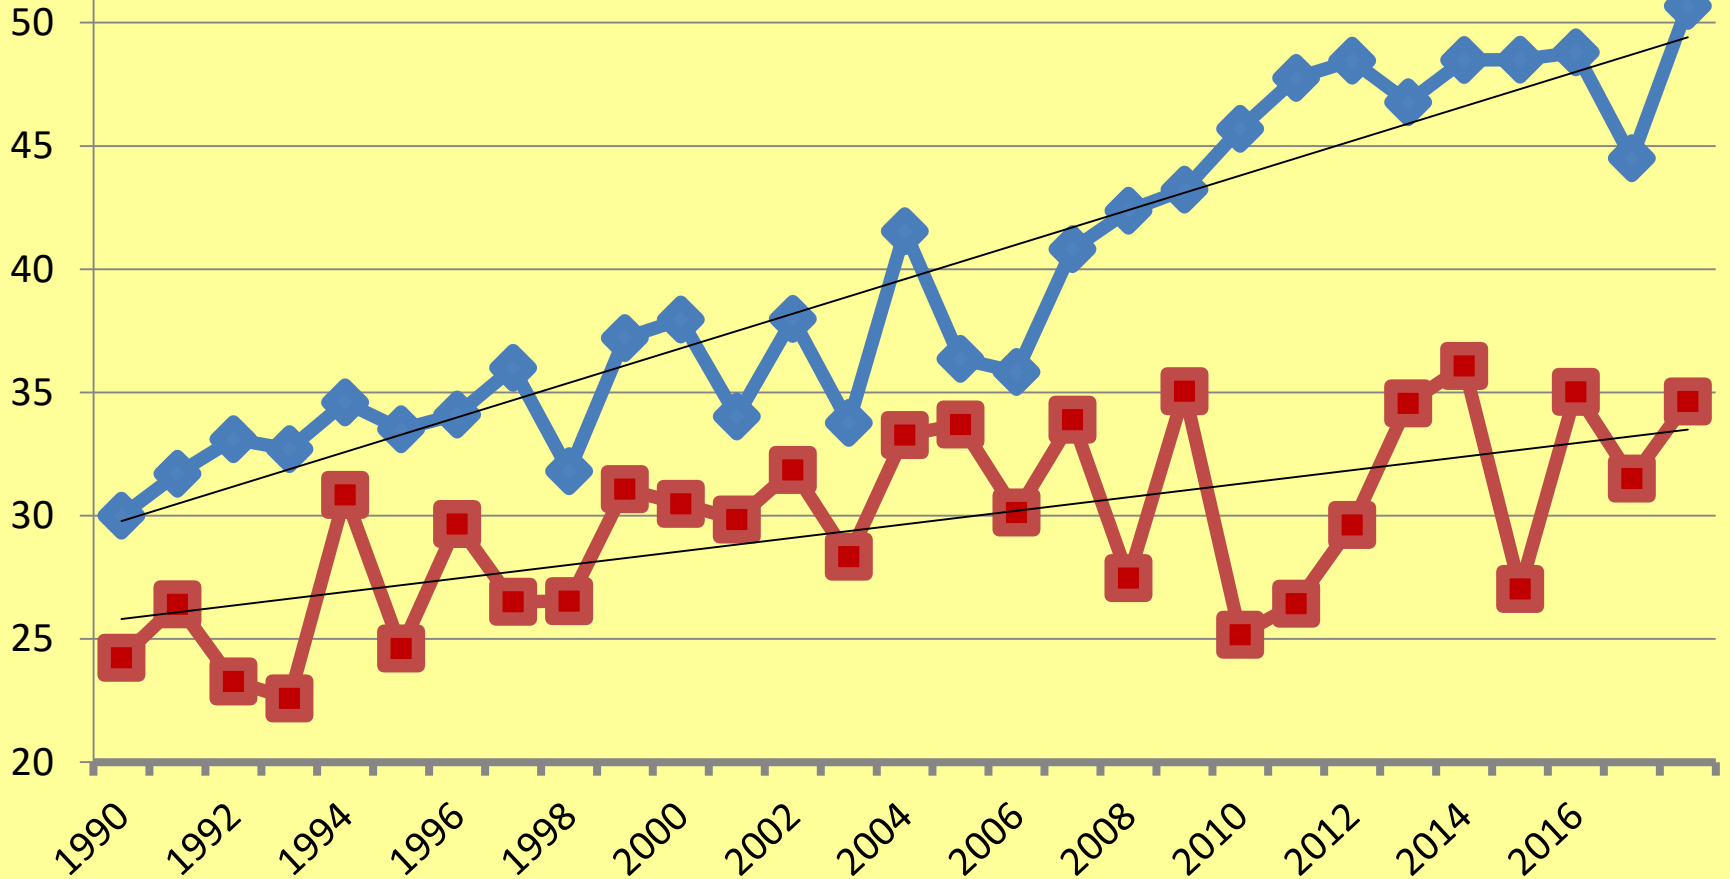

Processing tomato history

Tomato Yield History

Processing Crop Challenges

- **Changing demographics and culinary practices in the home**
- **Weather, weather, weather-both drought and excessive rain**
- **Labor**
- **Dicamba**

MidWest Advantages

- **Closer to the population**
- **Abundant and Safe Water supply**
- **Better business climates**

The Future?

- The I-80 Corridor is very productive
- Irrigation utilization will continue to grow
- Vegetable crops fit into a good rotation plan
