- Outdoor Education/Recreation**
Programs, activities and projects that involve being in, using, enjoying or interpreting the natural environment, including Outdoor Adventure Challenge, Project FISH, hiking, backpacking, canoeing, kayaking, orienteering and ropes courses.
- Physical Sciences**
Programs, activities and projects related to the natural sciences that deal primarily with nonliving materials, including Astronomy, Chemistry, Mathematics, and Physics.
- Plant Science**
The study of plants and how they grow. Plant genetics, reproduction and plant responses to the environment.
- Poultry Science & Embryology**
The branch of biology dealing with poultry embryos and their development.
- Proud Equestrian Program**
Riding and horsemanship for persons with disabilities.
- Rabbits/Cavies**
Any of several small, domesticated mammals related to ordinary hares or to rough-haired South American rodents in the Caviidae family, such as guinea pigs.
- Robotics**
The design, construction, operation and application of robots and computer systems for their control, sensory feedback, and information processing, including LEGO, VEX and FIRST robotics activities.

- Safety**
Programs, activities, or projects that affect being secure or protected from hurt, injury, harm or loss. Includes ATV, automotive and bicycle safety, emergency preparedness, tractor safety education, etc.
- Service Learning**
Acquiring personal skills and knowledge in the process of performing services to others through school-based or community-based organized programs that includes intentional planning followed by personal reflection.
- Sheep**
Ruminant mammals of the genus Ovis, of the family Bovidae, bred in a number of domesticated varieties for the production of meat or wool.
- Shooting Sports**
Programs, activities and projects related to the use of firearms and archery equipment to facilitate personal goal setting, sportsmanship, confidence and safety.
- Small Animals/Pocket Pets/Lab Animals**
Includes all other small, domesticated mammals raised and cared for not listed in any other Animal category.
- Soils & Soil Conservation**
Studies of soils as plant growth media, construction materials and naturally occurring bodies. Soils represent the place where earth's crust, the atmosphere, living things and water are most intimately mixed.
- Swine**
Any of a family (Suidae) of omnivorous, artiodactylous mammals with a bristly coat and elongated, flexible snout; esp., a domesticated pig or hog.
- Veterinary Science**
The study of prevention, alleviation or cure of animal diseases and injury.
- Wildlife & Fisheries**
Programs, activities and projects related to studies of wildlife and fish species in terms of ecosystems, geographic distribution, biodiversity, habitat, human utility, management, native and invasive species, including sports fishing and hunting.

****Please Note – There should be a 1/10 adult/kid ratio for all leaders and volunteers. (There should be at least one adult for every 10 kids in the club). It is suggested that each adult only be a project leader for no more than 2-3 project areas. Also, EVERY volunteer and project leader in your club MUST complete the Volunteer Selection Process before working with the kids. ****

Please list all other leaders assisting with your club (including teen leaders):

Project Leader's Name: _____

Address: _____
