

MSU'S CENTER FOR PFAS RESEARCH ANNUAL SYMPOSIUM

PFAS Challenges and Solutions in the Great Lakes Basin

A Model for Freshwater Ecosystems

A LETTER FROM THE SYMPOSIUM

The 2024 Center for PFAS Research Annual Symposium will focus on PFAS challenges and solutions in the Great Lakes Basin and provide a model for other freshwater ecosystems. The symposium will be dedicated to the exchange of scientific information and discoveries, remediation, policy, and emerging issues of PFAS. Expected attendance will include university faculty and researchers, government scientists, students, and others.

We invite you to be a part of the solution to PFAS by becoming a sponsor of the 2024 symposium. Being a sponsor will place your organization's name in front of researchers, industry professionals, regulators, scientists, and stakeholders. We appreciate your financial support and are confident that you'll find value in your participation.

October 6-9, 2024

Lansing Center
Lansing, MI

Sunday

Welcome Reception

Monday through Wednesday

Pleanary Speaker

Keynote Speakers
