

ABOUT US:

R.D. Offutt Farms

R.D. Offutt Farms is an industry leader in sustainable farming and food processing. As a family business, we remain driven by integrity and humility, forming the foundation for all our business operations. Employees at all levels of the business are empowered to make their own decisions, to find solutions for their customers, to celebrate team and individual successes, and to be innovative and entrepreneurial.

Syngenta

Syngenta is a global leader in agriculture; rooted in science and dedicated to bringing plant potential to life. Each of our 28,000 employees in more than 90 countries work together to solve one of humanity's most pressing challenges: growing more food with fewer resources. A diverse workforce and an inclusive workplace environment are enablers of our ambition to be the most collaborative and trusted team in agriculture.

Thinking about a career in agriculture? Unsure where to focus?

Agriculture is a broad business with many different paths to follow. Consider the R.D. Offutt Farms and Syngenta Agronomy Internship to help determine your career path through hands-on experience with our skilled team members.

We partner with several Upper Midwest colleges and universities to give college students an opportunity to learn more about a career in agriculture during 8-12 week internships. You will work hard, learn a lot, and gain real life appreciation of the many rewarding careers in agriculture.

R.D. Offutt Farms and Syngenta Agronomy INTERNSHIP PROGRAMS

JOIN OUR TEAM:

We are hiring students pursuing a degree in Agriculture or related programs for internships. This hands-on learning experience is for students interested in a career in agriculture.

R.D. Offutt Farms and Syngenta, agriculture leaders, are partnering together to create a unique opportunity for college students pursuing a career in agriculture. This internship opportunity will provide the selected students with a hands-on learning experience working on real projects and real solutions. They will see the vertically integrated farm experience from seed production all the way through processing the raw product. They will work with industry experts from R.D. Offutt Farms, Syngenta and University Professors who support the potato industry.

To apply, visit www.rdoffutfarms.com and click Careers.

Requirements: Student pursuing a degree in agriculture and a valid driver's license.

BENEFITS:

- Gain on-the-job experience learning from industry experts from R.D. Offutt Farms, Syngenta and University faculty
- Competitive wage and company paid housing during internship
- Complete an agronomy project that you help develop or one that is assigned
- Potential to receive a scholarship if expectations are met
- Potential to return each summer throughout your college career
- Potential for full-time career opportunities after graduation

WHAT TO EXPECT:

During this 8-12 week summer internship, you will participate in weekly agronomy meetings. You will learn about nutritional value and sustainability of the potato, crop development, insect, weed and disease scouting, soil sampling, petiole sampling, social responsibility in agriculture, and an individual agronomy project. You will receive training from University faculty and industry experts.
