

Michigan Vegetable Council - RFP FY2021

The Michigan Vegetable Council (MVC) is requesting research proposals for FY2021. The request for proposals is being coordinated by MSU AgBioResearch.

A maximum of \$10,000 (with maximum cumulative funding of \$30,000) is available for projects approved by the MVC. Preference will be given to projects that leverage these funds with other sources of funding (pending or awarded). Funding commitments will be for FY2021 only.

MVC proposals should be submitted electronically through MSU's KC system. A proposal development number is required for each proposal. Each proposal should be no longer than three pages. Proposals are due by 5 p.m. on January 11, 2021.

Michigan Vegetable Council & Project GREEN

GREEN Letters of Support requests are due to MVC by 5 p.m. on January 4, 2021.

If you intend to submit to Project GREEN for FY21 with matching MVC funding, these files are also due to MVC by 5 p.m. on January 4, 2021: MVC - FY21Proposal, CoverSheet and MVC - FY21ProjectBudgetForm.

Michigan Vegetable Council & Non-GREEN

Non-GREEN proposal requests require MVC - FY21Proposal, CoverSheet and MVC - FY21ProjectBudgetForm files to be completed and sent to MVC. These do not have a specific due date.
